## Environment – Health – Safety – Quality Policy

---

As a manufacturer and diversified supplier of textile and technical fiber products in connection with stainless steel moulded shells, Culimeta has build up a world-class reputation. Our success is based on tradition and our many years of experience; the use of new technologies; our commitment to occupational health and safety and environmental protection; the promotion of teamwork; and our ongoing efforts to meet the highest standards. Culimeta believes that by investing in continuous improvement of the quality of our products and in corporate environmental protection, we can safeguard the continued existence, competitiveness and sustainability of our company. We strive to consolidate this position and expand it through qualified growth.

# EHSQ – Policy

## Environmental - Health – Safety – Quality Policy

*We have defined the following guidelines as binding content of our business policy:*

- We comply with the requirements and laws relevant to the environment and our surroundings. We are committed to complying with all applicable laws and regulations - in particular, but not exclusively :*

***Occupational safety*** (such as: PPE, machine safety, incident and accident management, fire protection)

***Health protection*** (such as: Emergency preparedness)

***Environmental protection*** (such as: handling chemicals, air quality)

*and to achieving our own targets over and above the statutory minimum requirements.*

- We pay attention to environmentally friendly and safe processes and sustainable raw materials already in the conception and planning of our products, systems and processes*

***With this guideline, we declare responsible procurement of raw materials***

- Sustainable practices underpin our business activities, and we make every effort to minimize our impact on the environment, health and safety when designing, producing, distributing, using and disposing of our wide range of products.*

## Environmental - Health – Safety – Quality Policy

- *We believe it is our social duty to protect the environment and use natural resources sparingly. We actively advocate a genuine balance between environmental and economic concerns, ensuring that future generations inherit a healthy environment.*
- *We avoid or minimize environmental impacts such as waste, waste water, emissions and noise.*
- *The impact that our activities have on the environment is recorded, assessed and translated into targets and measures for improvement. We are committed to working continuously to reduce our environmental impact.*
- *We integrate all quality assurance business processes and those processes relevant to the environment and our surroundings into our management system, and continuously seek improvements.*
- *We promote environmental awareness among our suppliers and employees, enabling us to work together to protect the environment in all areas of the company, using raw materials and energy safely and sparingly.*
